

# Instalación de un idioma adicional a Windows W10/11 y WS2K16/19 Ubuntu o Debian

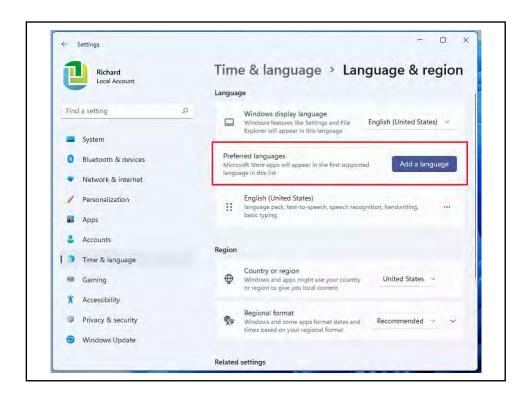

Alfredo Abad ISOP211\_IdiomaWIN-Linux UA: 12-sep-2022

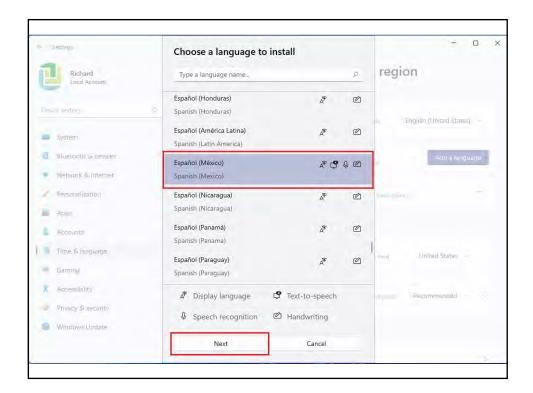

https://liukin.es/como-instalar-un-paquete-de-idioma-en-windows-11/

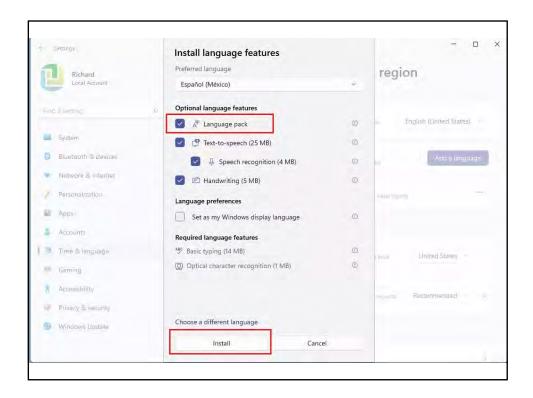

**WINDOWS 11** 

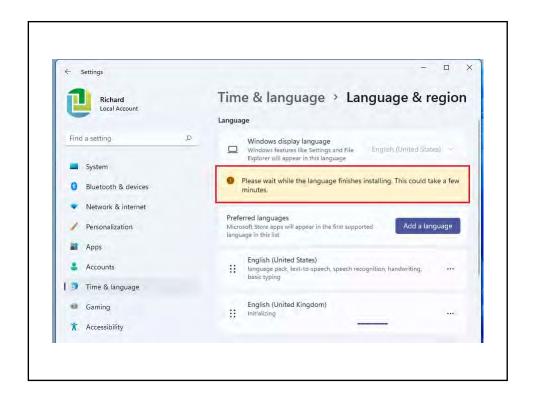

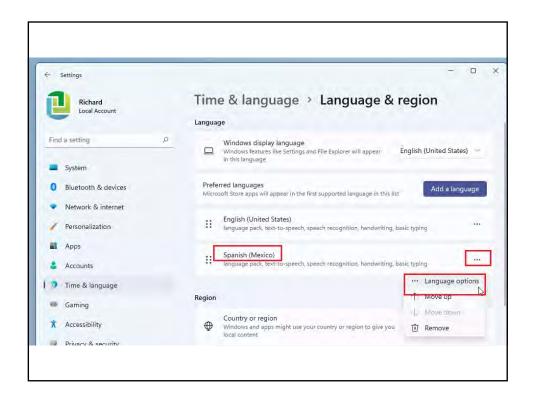

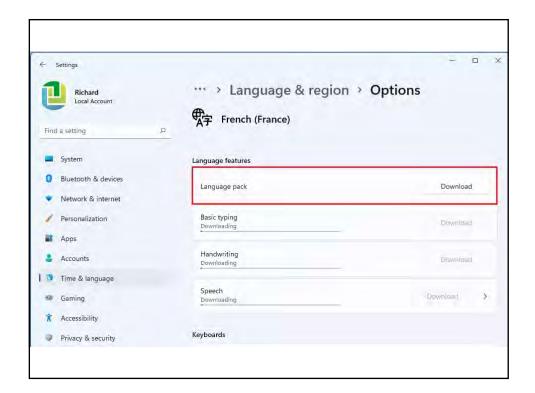

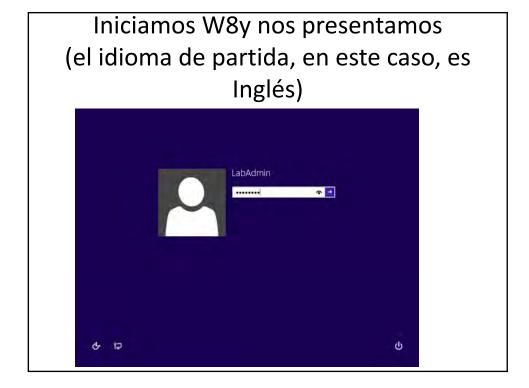

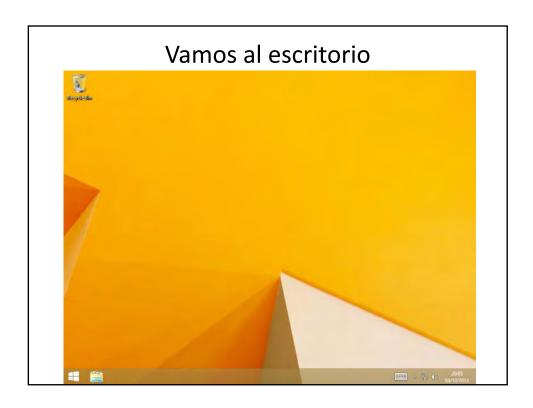

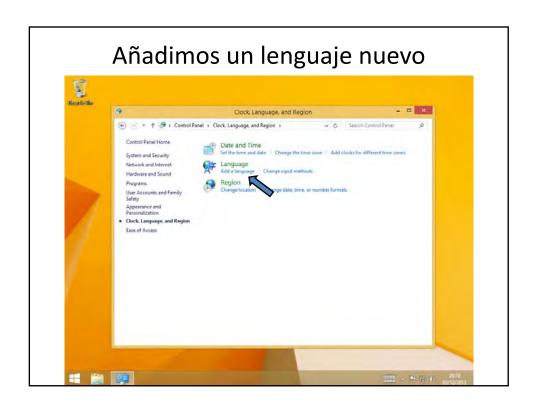

(Para poder comparar con versiones anteriores)

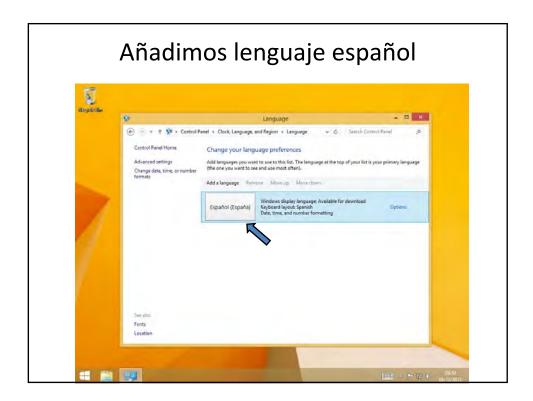

### **EJEMPLO CON WINDOWS 8**

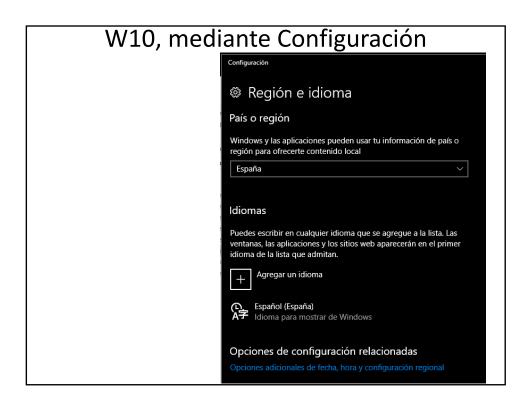

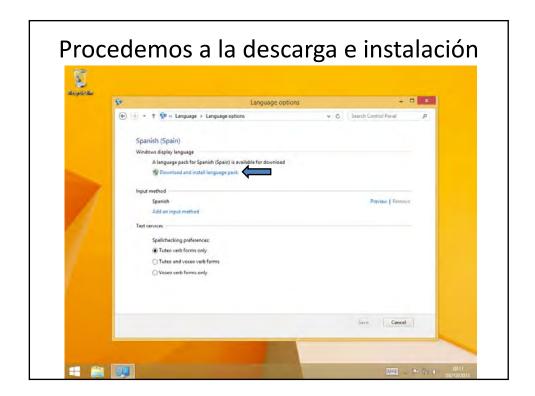

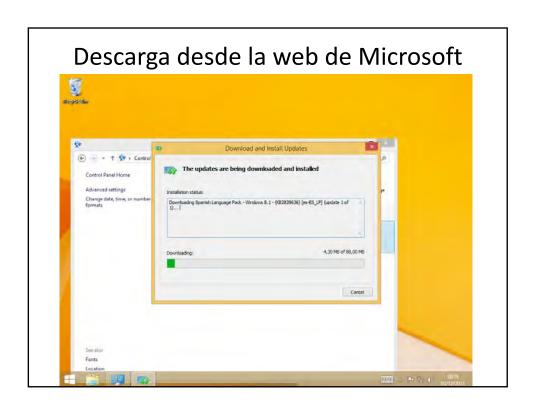

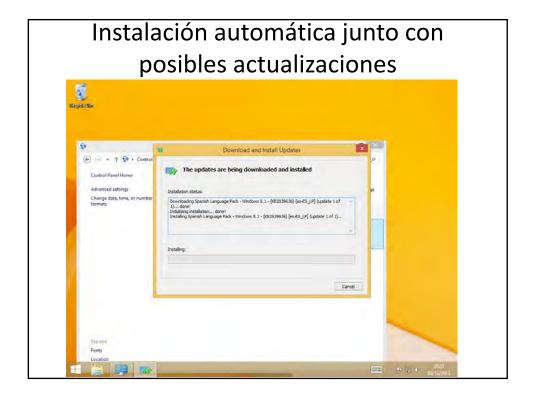

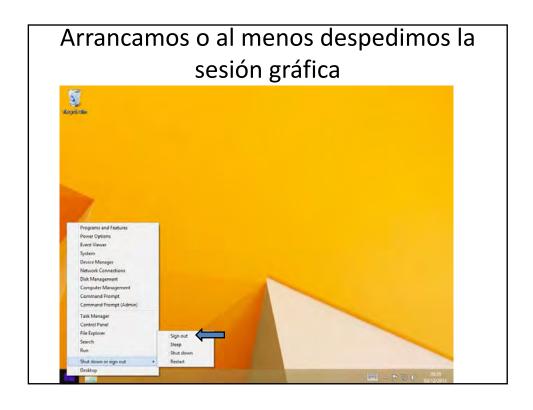

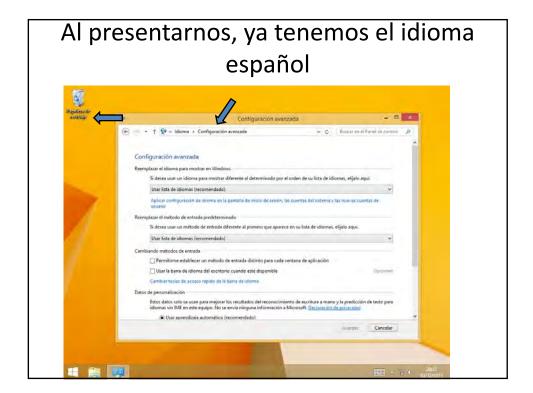

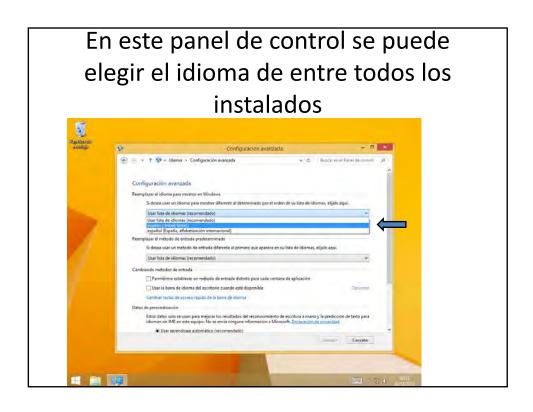

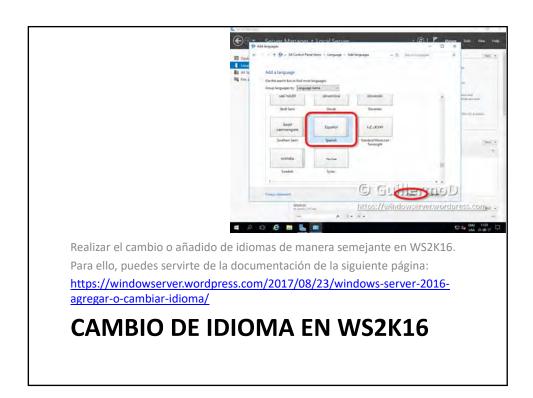

https://help.clouding.io/hc/es/articles/360014000840-C%C3%B3mo-cambiar-el-idioma-en-Windows-Server-2022-o-2019

## **WINDOWS SERVER 2019/2022**

 $\frac{\text{http://somebooks.es/completar-la-configuracion-del-idioma-en-ubuntu-}}{22\text{-}04\text{-}lts/}$ 

https://www.redeszone.net/tutoriales/servidores/cambiar-idiomateclado-ubuntu-server/

#### **UBUNTU DESKTOP Y SERVER**

## Operación

- Tomar un sistema W10 o superior y otro W2K16 o superior
  - Fijarse el idioma en que está instalado
  - Elegir otro idioma, por ejemplo: inglés si está en español o español si estuviera originalmente en inglés
  - Instalar ese nuevo idioma
  - Realizar pruebas de funcionamiento en el nuevo idioma
- Seguir el documento siguiente para hacer un cambio de idioma a un sistema Ubuntu o Debian (Desktop y Server)
  - <a href="https://itsfoss.com/change-locales-linux/">https://itsfoss.com/change-locales-linux/</a>
  - O los enlaces de las diapos anteriores
- · Para entregar:
  - Guion de operación de actividad
  - Código de práctica: ISOP211\_IdiomaWIN-Linux
